

REMARKS

32. The above amendments to the specification all pertained to the formal drawings. These formal drawings are all believed to comply with the formal drawing requirements. Applicant does not believe that any of the above amendments to the specification bring new matter into the application, because they are consistent with the formal drawings that are based on the originally filed drawings. Applicant does not believe that the formal drawings bring in any new matter.

33. Applicant respectfully requests favorable action on this Amendment After Allowance, and that the amendments to the specification be entered, and other favorable action.

Respectfully submitted,

---
